WHO WE ARE

Jackson Technologies is a **Western PA-based IT field services and low-voltage installation company** serving businesses and IT firms across the Eastern US. We work as a trusted white-label subcontractor — handling the physical, on-site work so you can focus on your client relationship.

We never solicit your clients, hand out our cards on your job sites, or compete for work you brought us into.

SERVICES WE PROVIDE

Structured Cabling

WHITE-LABEL

Cat5e/6/6A, fiber optic, patch panels, rack build-outs, BICSI-certified testing & documentation

Equipment Deployment

T&M OR FIXED

Receive, stage, image, and deploy network gear, workstations, and servers — single or multi-site

Smart Hands / Break-Fix

SAME-WEEK

On-site NOC support — cable tracing, device swaps, reboots, hands-on troubleshooting

Audio / Visual

WHITE-LABEL

Conference room displays, video walls, digital signage, Teams/Zoom room integration

Security & Access Control

WHITE-LABEL

IP cameras, NVR/DVR, keycard and biometric access control, alarm integration

Data Center Work

PROJECT-BASED

Full relocations, decommissions, rack & stack, infrastructure build-outs

SERVICE TERRITORY

HEADQUARTERS

Greensburg, PA
Pittsburgh Metro Region

Core: Western PA, Pittsburgh corridor, OH, WV, MD.

East Coast deployment within 48 hrs of project confirmation.

HOW WE WORK TOGETHER

PRIME CONTRACTOR

We act as prime on projects in our core region. Single point of contact, full scope management, direct PM reporting.

SUBCONTRACTOR

Field labor under your prime. White-label available. We never contact the end client independently.

COLLABORATIVE

On multi-region rollouts we coordinate with other partners — one accountable team for your PM.
